Notes & Details

The high-efficiency juice dispenser features an advanced cooling system that maintains a temperature range of 3-8°C (37-46°F), keeping your beverages fresh and chilled. Each tank has a large capacity, making it ideal for storing a variety of drinks such as juice, soy milk, yogurt, or iced tea. Constructed with a durable 304 stainless steel body and food-grade PVC inner tank, it ensures safety, reliability, and long-lasting performance. The design allows for easy cleaning and low maintenance, thanks to the stainless steel components. Perfect for use in stores, hotels, restaurants, schools, and other commercial environments, this dispenser uses eco-friendly Gas R290 for efficient cooling.
