Power	1200 W

### Features

- Comes with two half-size steam table pans and lids for serving two different foods at the same time.
- 1200W heating system helps preheat quickly and keep prepared foods warm during service.
- Adjustable 68°F-203°F control knob lets you set the heat level for soups, sauces, stews, and buffet dishes.
- Bain marie water bath design helps provide smoother, more even warming with Max and Min water level markers.
- Durable stainless steel body is easy to clean and suitable for restaurants, buffets, catering, food trucks, and parties.

### Certifications

ETL, US & Canada

ETL Sanitation

## Technical Drawings

## Notes & Details

This food warmer is designed for keeping prepared hot foods warm and is not intended for cooking raw food. Always add water to the tank before use and keep the water level between the Min and Max lines to prevent dry heating. Place the unit on a flat, dry, heat-resistant surface, and do not move it while it contains hot water or hot food. Use the included pans and lids properly, and avoid overfilling the pans during service. Always turn off and unplug the unit before draining water, cleaning, or moving it. The tank, pans, lids, water, and surrounding surfaces may become hot during operation, so use heat-resistant gloves when handling. Never immerse the electrical base, plug, or power cord in water.
