Notes & Details

When using the Manual Salad Spinner & Dryer, please ensure that the spinner is placed on a stable, flat surface to prevent any tipping or damage during operation. Always spin the handle with a steady, controlled motion to avoid excessive force that could strain the mechanism. Do not overload the basket; the spinner is designed to handle up to 8 heads of lettuce or equivalent vegetables for optimal performance. After each use, clean the spinner thoroughly with warm, soapy water and dry it completely to maintain its longevity and hygiene. Avoid using abrasive cleaning tools to prevent damage to the components. If any part of the spinner shows signs of damage or wear, discontinue use and contact customer service for support.
