Hakka Outdoor Digital Electric Barbecue Smoker 4 Layers BBQ Meat Smoker Grill(DSH-S20B)

Technical Data

Length	25.2"
Width	17.72"
Height	35.83"
Net Weight	71.6 LB
Gross Weight	80.5 LB
Temperature Range	30°C-120°C
Timer Range	Up to 12 Hours
Material	Stainless steel
Voltage	110V/60Hz
Power	1000W

Features

- Double-Walled Insulation: Heavy-duty body with premium rock wool for maximum heat retention and energy efficiency.
- Precision Digital Control: Easy-to-use interface with an 86°F–248°F temp range and a 12-hour "set & forget" timer.
- Side Wood Chip Drawer: Refill chips safely without opening the door, keeping heat and smoke perfectly contained.
- Massive 4-Layer Capacity: 4 adjustable chrome racks and 10 hooks provide ample space for high-volume batches.
- Built-in Grease Management: Integrated oil guide and drip tray keep fats away from the 1000W element for easy cleanup.
- Durable Stainless Build: Professional-grade construction designed to withstand outdoor use and frequent cleaning.

Product Size

25.2*17.7*35.83 inch (including handle, chimney, control box not included)
25.2*22.8*35.83 (Including handle, chimney, control box)
18.1*16.14*31.1 (handle, chimney, control box not included)

Notes & Details

This unit must be used exclusively in open outdoor areas; never operate in enclosed spaces as the exhaust vent continuously releases smoke and carbon monoxide. Pre-Use Seasoning: Run the smoker empty at 200°F (93°C) for one hour with the exhaust vent fully open to burn off manufacturing residues. Vent Management: Adjust the top chimney to balance smoke density. Safe Operation: Always wear heat-resistant gloves when adjusting the hot exhaust vent or refilling the side wood chip drawer. Maintenance: Periodically check the exhaust pipe for creosote buildup to prevent chimney fires and maintain proper airflow. Weather Protection: When not in use, ensure the vent is closed or the unit is covered with a waterproof shroud to prevent rain from entering the chimney and damaging the internal heating system.
